Goods Unloading and Loading Zones Map

For further information or to provide feedback on the map, please call the Royal Borough of Kingston upon Thames Environmental Services Contact Centre on:

020 8547 5929

Electronic copies of the map are available to download from the South London Freight Quality Partnership website at:

www.londonfqps.co.uk

The South London Freight Quality Partnership brings together representatives from local authorities, the freight industry and other key stakeholders to find constructive solutions to local issues affecting the efficient, economic, safe and sustainable movement of freight throughout South London.
Loading and unloading zones have been created in Kingston Town Centre to assist drivers making deliveries. When setting out, please check which zone your delivery is in and then follow the signs when you approach Kingston Town Centre.

The Borough is within the area covered by the London Low Emission Zone (LEZ). Operators and drivers are advised to plan their route in advance to meet the requirements of the LEZ.

Certain roads within the Borough are within the area covered by the London Low Emission Zone (LEZ). Operators and drivers are advised to plan their route in advance to meet the requirements of the LEZ.

No parking facilities are available within the Borough and an overnight parking ban for vehicles over 5 tonnes exists on Borough roads.
